NXTZEN®

Australian Made & Tested Coatings

Knowing how to best protect your vehicle can be difficult, but here at Clean Getaway, we promise to make it a stress-free & seamless experience! You can trust our team with over 20 years of combined ceramic coating experience, our team have the expertise to recommend what is best for your vehicle to suit your lifestyle.

Our passion for using NXTZEN coatings comes after years of rigorous durability and performance tests across many industry-leading coating brands such as Atri-Pro, Titan, Opti-Coat & GTechniq.

NXTZEN Coatings are proudly manufactured in Sydney, Australia & have over 15 years of industry experience and knowledge. Their coatings have been scientifically developed to withstand Australia's extreme environmental conditions, utilizing superior SiC (silicon carbide) and graphene qualities, backed with genuine warranties.

Your Packages

3 Pricing Options Listed Below

NXTZEN Ceramic Professional Coating

🛡️ 5 Year Warranty

NXTZEN Ceramic Professional is formulated and manufactured in Australia for guaranteed surface protection and peace of mind for new vehicle owners. With over a decade of industry experience, we used this knowledge to develop a product that will withstand the most extreme environmental conditions utilizing SiC technology while also enhancing aesthetic qualities beyond expectations.

Includes GST.

This coating is highly recommended for those who seek to keep their vehicle for up to 5 years.

NXTZEN Graphene Serum Coating

🛡️ 7 Year Warranty

This extremely advanced ceramic coating consists of a concentrate of graphene nano particles, enhancing its tensile strength and increases resistance against corrosion. Having an incredibly slick outer layer, Graphene Serum boasts eye-catching water beading properties & stronger resistance to water-spotting unlike other well-known brands.

Includes GST.

Developed & tested in Australia against our extreme climate, you'll have peace of mind knowing your vehicle is protected with the industry's best!

NXTZEN Elite Dual-layered Coating

🛡️ 9 Year Warranty

If you want the best, then this is it! Our dual layered ELITE coating package boasts self-healing properties when activated by heat, whilst retaining high gloss! The hydrophobic finish of ELITE is like no other, extremely smooth making it easy to maintain, while reducing contamination build up over time.

Includes GST.

The layering of two coats of ELITE results in having an incredibly durable finish, significantly helping prevent induced swirls & light scratches.

We welcome American Express

Our Coatings Are Independently Tested by the CSIRO

Extensive Testing Measures

CSIRO have conducted independent testing on our NXTZEN professional ceramic resin, to show materials performance in relation to the resistance of corrosive chemicals and Pancreatin.

What Is Pancreatin?

Pancreatin is the corrosive, digestive enzyme found in bird and bat droppings, known for its damaging effect on automotive clear coats. NXTZEN coatings have been proven to protect your vehicle from exposure to Pancreatin and other chemicals up to pH14!

ASTM D1308-20	RESULTS
Hydrochloric Acid (32%)	No effect
Phosphoric Acid (85%)	No effect
Ethanol	No effect
10:1 Pancreatin slurry	No effect
